Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-10, drawn to method for repairing a lumen using a prosthesis made from a fluid impermeable polymeric fabric and yarns, classified in class 128, subclass 898.
- II. Claims 11-31, drawn to a method for repairing a lumen using a prosthesis made from tubular polymeric fabric in combination with a stent; and a tubular expandable prosthesis including a stent along with a method for making the prosthesis, classified in class 623, subclass 1.13.

The inventions are distinct, each from the other because of the following reasons:

Inventions of group 2 and group 1 are related as process of making and a subcombination of the product along with a process of using the product. The use as claimed cannot be practiced with a materially different product. Since the product is not allowable, restriction is proper between said method of making and method of using.

The product claim will be examined along with the elected invention (MPEP § 806.05(i)).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Newly submitted claims 11-31 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: See restriction above.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 22-31 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claim Rejections - 35 USC § 112

Claims 2,4,6,7,8,10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 2, the use of "via" is improper.

Claim 4 is redundant to claim 3. Claim 3 refers back to claim 1 and claim 1 defines an "expandable prosthesis". Therefor the prosthesis of claim 3 must be expandable.

Claims 6,7, the use of "via" is improper.

Claims 8 and 10, recitation of "its diameter" does not have proper antecedent support.

Claims 1,3,5,9 are allowed.

Art Unit: 3738

Claims 2,4,6,7,8,10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
